AMEND Senate Bill No. 2704

House Bill No. 2634*

by deleting all of the language after the enacting clause and substituting instead the following:

SECTION 1. Tennessee Code Annotated, Section 63-6-245(b), is amended by deleting the subsection and substituting instead the following:

(b) If a physician has determined, after a mammogram is performed, that a patient has dense breasts or extremely dense breasts, based on the breast imaging reporting and data system established by the American College of Radiology, the facility where the mammogram was performed shall provide the following notice to the patient:

Your mammogram shows that you have dense breast tissue. Dense breast tissue is common. However, dense breast tissue can hide breast cancer, so that it may not be seen on routine mammography. It may also be associated with an increased risk of developing breast cancer. You should discuss these results with your doctor to determine if additional tests might be helpful. A report of your mammogram results, which contains information about your breast density, has been sent to your doctor's office.

SECTION 2. This act shall take effect July 1, 2018, the public welfare requiring it.
